

Pavaso's New Signing Experience Enhancements

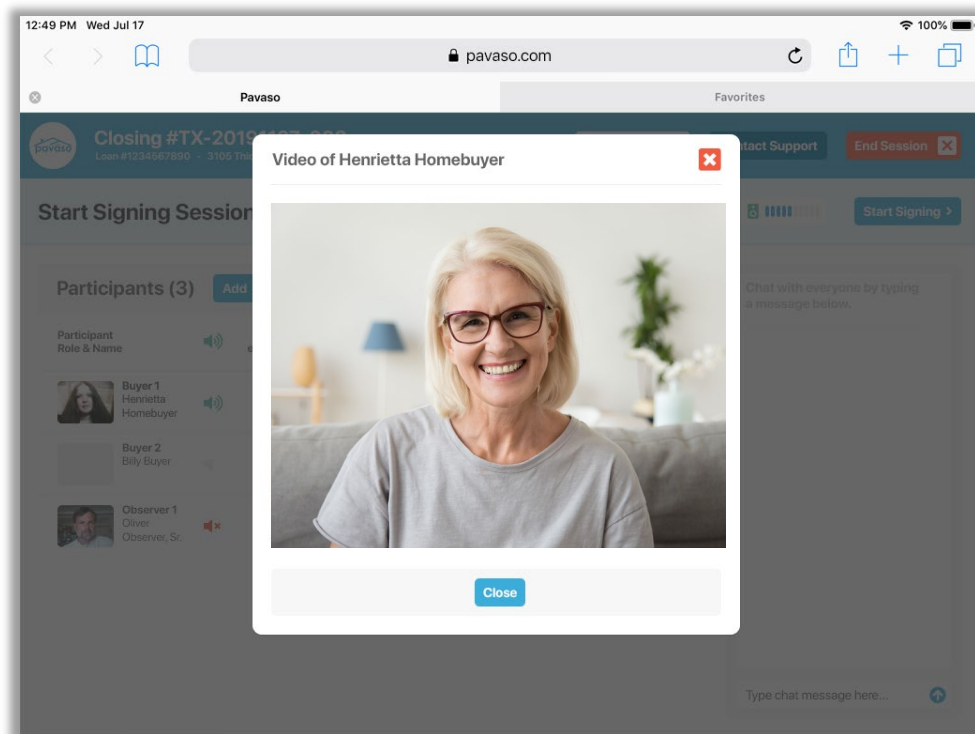

1. Enlarge Validated ID Images

After a Participant has validated their ID, the conductor of the session can now enlarge the ID image to view it more clearly.

2. Expand Participant's Camera Feed During Session

The session conductor can now enlarge the video feed of participants by clicking on their video thumbnail. The video feed window will enlarge to fill the screen so the conductor can have better visibility to see a participant.

Pavaso System Enhancements

1. Ability to Add/Modify Notary Signature for Electronic Notarization

Users with an active eNotary seal on the Pavaso platform can now upload or draw a new version of their electronic signature to their profile. The signature can be drawn using a mouse or touchscreen device. If uploading a file containing the signature, the image must be a PNG file no larger than a 5 MB file.

Users should navigate to the Notary tab in their profile. Under the **Notary Commission Information** tab, selecting the **Upload Signature** button allows users to either draw their signature or upload an image file. After the new signature is saved, all instances of the signature will be updated for future signings.
