

Pavaso's New Signing Experience Enhancements

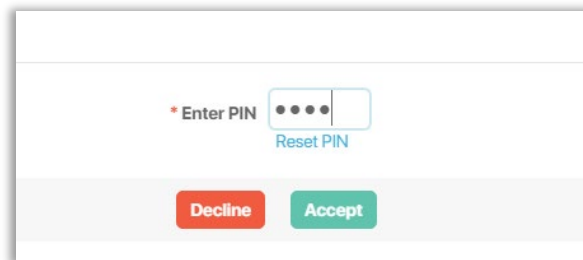

1. Internet Performance Check

During a RON signing session using the new signing experience, Pavaso now checks the internet speed of each participant. If the participant's internet speed drops below 14 MBPS, an alert will appear.

2. PIN Entry Submission

When checking in to a RON or IPEN session using the new signing experience, the Enter key can now be used to submit a participant's PIN.
