

Enhancements

Do you have an idea you'd like to submit? [Visit the Pavaso Ideas portal!](#)

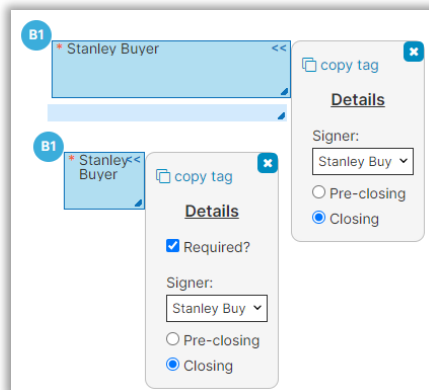

Select Multiple Tags

Pavaso Idea Submitted by a Customer

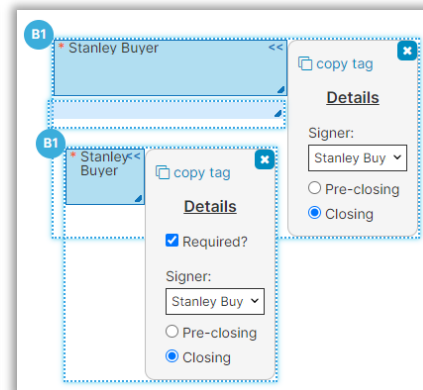

When tagging documents, multiple tags can now be selected. To select multiple tags, hold Shift and left click, or click and drag over all needed tags.

The selected tags will show a dotted blue border to indicate they are selected.

Selected

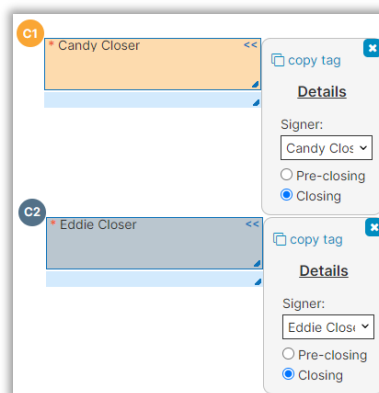

Different Color Tag for Each User

Pavaso Idea Submitted by a Customer

Each user now has their own color for their assigned tags. Previously, the tags would be the same color for each type of user.

This only applies to editing/read only mode in DCE. This will be applied to signing sessions in a future release.

Example: Closer One and Closer Two have different color tags.

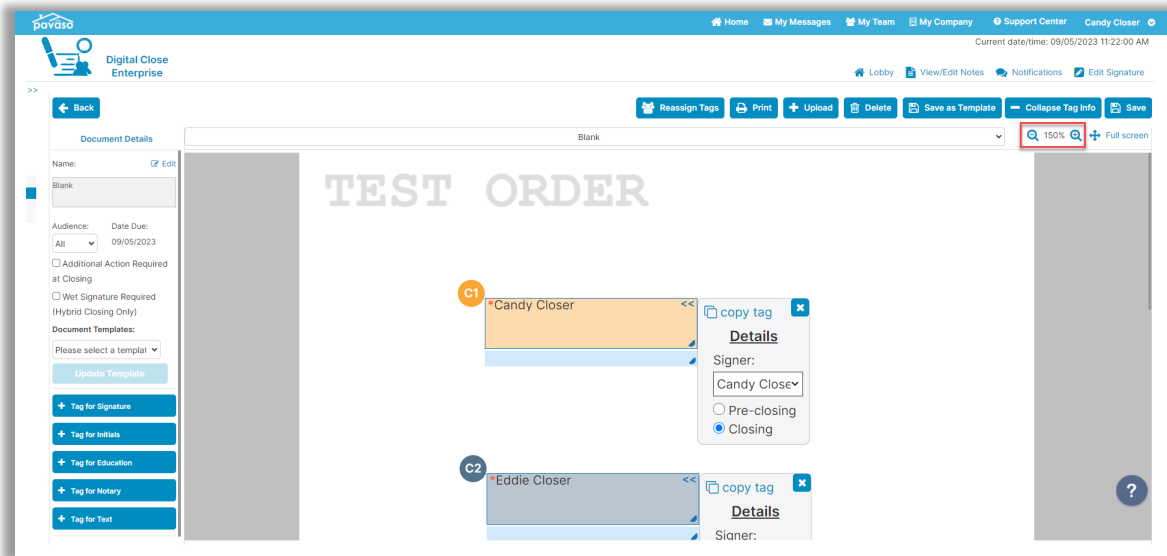

See Entire Screen While Editing

Pavaso Idea Submitted by a Customer

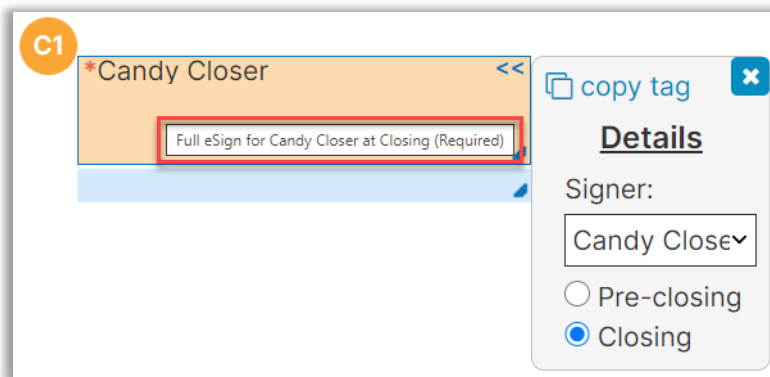

The full view of a document is now displayed within Edit mode. The magnify icons can be used to zoom in or out of the document.

Tag Details Display Upon Hover

Pavaso Idea Submitted by a Customer

When in Edit or Read Only mode, the details of a tag will now display when hovering over it. Details include the type of tag, name of the assignee, pre-closing or closing, and if the tag is required.

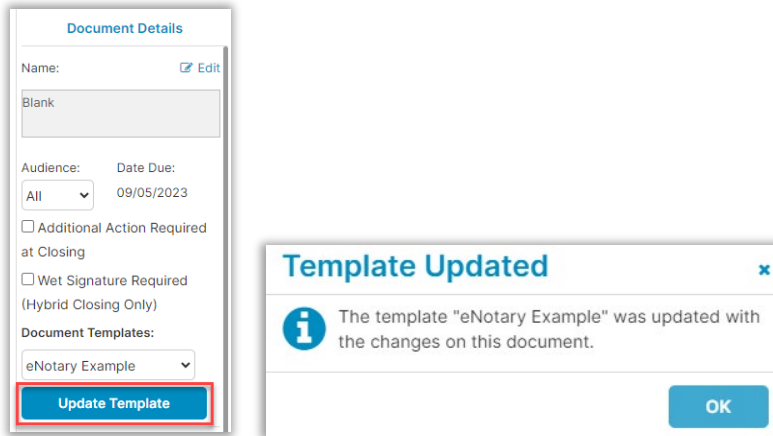

Simpler Way to Update Templates

Pavaso Idea Submitted by a Customer

Templates can now be updated by selecting the **Update Template** button instead of re-entering the template name to override an existing template.

When a template has been applied and the tags modified, the Update Template button is enabled. When the template is updated, a confirmation message appears.

If no template has been applied, the option is disabled.
